Dear The Federal Communications Commission,

Dear Ma'am or Sir:

The fee for our land-line phone has already increased. We use the wireless phone for emergencies. Please reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal now under consideration, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. Please help us continue to afford the wireless service.

Sincerely,

Carla Solberg PO Box 125 Powell, WY 82435

Sincerely,

Carla Solberg
